

Gas Field Policy 1: Order Entry Policy

In addition to a signed Purchase Order Document, customers must provide the requirements of the compressor(s) being ordered.

Specific information needed includes:

- Commercial Information
- Information on customer contacts for commercial and technical questions, sending engineering information, etc.
- Special accessories ordered
- Cylinder orientation required
- Lubrication system requirements
- Compressor gas analysis and performance requirements (final)
- Torsional analysis information
- Any electrical conditions
- Any special QA/QC requirements
- Any other special requirements
